Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Status of the Application

This Office Action is in response to applicant's petition filed on September 24, 2004. Claims 1-19 have been cancelled. Claims 20-40 have been added. Claims 20-40 are pending are examined herein.

Specification

The disclosure is objected to because of the following informalities: the structure of escitalopram is incorrect in that the side chain contains one too many carbons.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 20-40 are rejected under 35 U.S.C. 102(b) as being anticipated by Boegesoe et al. (US Patent 4,943,590).

Boegesoe et al. teach the method of treating depression in a patient with the (+) enantiomeric form of citalopram, otherwise referred to as escitalopram (col. 1, lines 9-26). Acceptable pharmaceutical salts of escitalopram include oxalate (col. 1, lines 29-42). What's more, daily dosage of escitalopram is disclosed to be from 5 to 50 mg (col. 8, lines 55-60).

The limitation in claim 20, where applicant states "in a patient who failed to respond to initial treatment with a selective serotonin reuptake inhibitor other than escitalopram," is not given any patentable weight, because the claim reads on treating depression in a patient in need of treatment. This is interpreted as patients who have responded and not responded to previous treatment for depression. Either way, escitalopram will treat the patient in the same manner. Similarly, the further limitation in claim 21 that reads "administered to obtain an effect in the patient after one week" is not given any patentable weight, because it is well known that the effective onset of treatment of a drug varies depending on the compound and patient. In other words, this is an inherent property of escitalopram.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yong S. Chong whose telephone number is (571)-272-8513. The examiner can normally be reached on M-F, 9-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, SREENI PADMANABHAN can be reached on (571)-272-0629. The fax phone number for the organization where this application or proceeding is assigned is (571)-273-8300.
